### Раздел 2 (задания по чтению)

*Прочитайте тексты и установите соответствие между текстами и их заголовками: к каждому тексту, обозначенному буквами A-D, выберите соответствующий заголовок, обозначенный цифрами 1-5. Запишите свои ответы в таблицу. Используйте каждую цифру **только один раз**. В задании есть **один заголовок лишний**.*

1. Good sleeping conditions
  2. Advantages of bedtime routine
  3. Pre-sleep activities
  4. Sleeping classes
  5. The mechanism of dreaming
- A. Recent research shows that lots of teenagers are suffering from lack of sleep which is causing problems with their behaviour and learning. As a result schools have introduced a new lesson where students are given more of an idea of the importance of sleep. According to medical data, they should get at least nine hours' sleep a night. Young people should realise that sleep is very important if they want to do well at school and enjoy life.
  - B. It's common knowledge that people sleep best in a dark room that is slightly cool. It's important to close your blinds or curtains and make sure they're heavy enough to block out the light. You can add extra blankets or wear pyjamas if you're cold. Note that an uncomfortable bed, heat and noise can ruin a good night's sleep. A TV is also a distraction..
  - C. Think twice before watching a movie late at night. Don't spend sleeping time on endless computer games. The thing is that by getting up and going to bed at the same time every day, even on weekends, you teach your body to follow a healthy regime. You'll quickly fall asleep, will have a good night's sleep and will wake up at the expected time feeling fresh and active.
  - D. Some easy steps can prepare your body for going to sleep. You probably have some regular bedtime habits, even if you don't realise it. Brushing your teeth, taking a shower, reading a book and setting your alarm clock may all be part of your evening routine. Remember that you should perform these activities in the same manner and in the same order every night.

Запишите в таблицу выбранные цифры под соответствующими буквами.

Текст	A	B	C	D
Заголовок				

*Прочитайте текст. Определите, какие из приведённых утверждений **3–9** соответствуют содержанию текста (1 – True), какие не соответствуют (2 – False) и о чём в тексте не сказано, то есть на основании текста нельзя дать ни*

*положительного, ни отрицательного ответа (3 – Not stated). В поле ответа запишите одну цифру, которая соответствует номеру правильного ответа.*

Many Americans enjoy running marathons – a forty-two kilometer race. More than three hundred marathons were held in the United States last year and that number is expected to grow.

The New York City marathon is held every year on the first Sunday of November. It is a big sporting event with thousands of participants. One can see celebrities and famous sportsmen among the marathon runners. A famous cyclist, whose excellent physical condition helped him complete the marathon in less than three hours, admitted that the race was ‘the hardest physical thing he had ever done’.

While the New York City marathon is the biggest, the Boston Marathon is the oldest one. Boston’s is held in April. Boston is famous for the fact that Roberta Gibb became the first woman to unofficially run that marathon in 1966. At that time, people did not believe women could run marathons. The Olympics did not hold a women’s marathon event until 1984 in Los Angeles, California.

Today’s marathons welcome everyone. The popularity of the sport has spread among people who are interested in health and fitness. Many middle-aged people like to spend a weekend visiting a new city and running a marathon there. Some magazines call the middle-aged people of today the ‘marathon generation’. Forty-three percent of marathon runners in the United States are 40 years old or older. There are many organisations for marathoners. Nowadays many local running clubs offer training programmes that can prepare runners for the big race. A marathon really starts several months before the race. You need to run about five days every week to prepare. Most runs should be for half an hour. You should also try to run for an hour or more each Sunday. This is a very basic way for an average runner to prepare.

What you can’t prepare for is running in a big marathon with thousands of other participants. A marathon is in many ways a social event. There is a sense of community. The spectators are as much a part of the race as the runners. Almost every age group is present. At the start of the race there is a lot of shouting as the runners want to release some tension. They have three to five hours of hard running ahead of them.

However there are people who want to run farther. For them ultra-marathons are organised that take running to a different level. An ultra-marathon is any race longer than a marathon. One of the oldest ultra-marathons is held annually in California, USA. It is 160 kilometers long. Last year, 210 people finished the race. The winner, Graham Cooper, finished in eighteen hours and seventeen minutes.
